Description

Developed exclusively for SCIEX, the MS Bench SCI 2 range provides a modular workstation with provision for either integrated gas generation or a noise abating enclosure for roughing pumps. MS Bench SCI 2 is designed specifically for use with the SCIEX 7500 LC-MS/MS System.

Two variants of the MS Bench SCI 2 are available. MS Bench (G) SCI 2 features a self-contained gas generator, providing a reliable and cost-efficient source of both nitrogen (Curtain Gas™) and clean, dry oil-free air for source and exhaust gas at flows and pressures configured to meet SCIEX 7500 LC-MS/MS System requirements. The other variant, the MS Bench SCI 2, comes without the gas generator, instead providing a compartment below the bench, suitable for housing specific roughing pumps used with 7500 LC-MS/MS.

Applications

- MS Bench (G) SCI 2 for SCIEX Triple Quad™ 7500 LC-MS/MS System instrument
