

MH-120 Micro Centrifuge

Laboratory Bench-top Centrifuge

Centrifuge

Features

- Auto-balancing system to extend centrifuge life as well as to reduce noise and vibration
- Auto-stop system—automatically decelerate when the lid opens
- Smooth and quiet operation with stable and linear acceleration
- Standard hematocrit rotor with percentage reader
- Manual break for complete control over spin down cycle

Hematocrit Rotor

Aluminum percentage reader

Specifications

Item	Specification
Speed	12,000 RPM
Timer	0 - 15 min mechanical timer
Power	110V 60Hz or 220V 50Hz
Weight	32 lb
Size (L x W x H)	290 x 400 x 260 mm
Construct	Metal Housing
Hematocrit Rotor <i>(Standard)</i>	Disc Rotor 24 x capillary tubes (dam 1.5mm x 75mm) 500-12,000 RPM Max. Rcf 14,648 xg Standard aluminum percentage reader
